## IMPROVE YOUR CHILD SAFEGUARDING PRACTICE

Keeping Children Safe (KCS) can help you develop online child safeguarding training courses across all areas of international child safeguarding practice including:

- Assessing and mitigating child safeguarding risks
- Developing a child safeguarding policy and procedures
- Safer organisational culture
- Working with partners on safeguarding
- Safer recruitment processes
- Engaging children and communities in child safeguarding
- Responding appropriately to child safeguarding concerns
- Conducting child safeguarding investigations
- Safeguarding children in research
- Child safeguarding in communications.

We can support you to develop online learning options for all levels, from short self-directed induction courses to produce a comprehensive, interactive child safeguarding curriculum for technical experts and advanced practitioners.

Courses can be hosted on your organisation's Learning Management System (LMS), or on the KCS Learning online platform.

'A strong safeguarding culture is crucial to the elimination of all forms of violence against children. Promoting the highest standards is a priority for me.'

**Najat Maalla M'jid**

Special Representative of the Secretary-General on Violence against Children

From the KCS Online Summit 2020.

## DECADES OF EXPERIENCE AND EXPERTISE

For almost twenty years, KCS has accompanied tens of thousands of organisations, serving millions of children across the world, to improve their child safeguarding measures. From absolute beginners to experienced global child safeguarding advocates and practitioners, we offer confidential and independent child safeguarding advice, tools, resources, training, and signposting to prevent and mitigate child safeguarding risks.

We have collaborated with organisations from all sectors including the United Nations; governments including the United Kingdom, United States, Zambia, Nigeria, Zimbabwe and Uruguay; academic institutions, donors and foundations, sports organisations, militaries, the private sector, and non-governmental organisations operating at all levels worldwide.

## INDEPENDENT, EVIDENCE-BASED AND QUALITY-ASSURED

We are completely independent, and all our advice is guided by the International Child Safeguarding Standards and the rights and best interests of the child or children concerned. Our standards and guidance are subjected to continuous review and quality-assurance by an independent global committee of expert practitioners and researchers, based on the latest evidence.

## GLOBAL REACH, CONTEXT SPECIFIC APPROACH

We work in a range of languages including English, Spanish, German, Italian, French, Bulgarian and Russian. Our approach is refined by feedback and learning from our programmes, global events and community of practice which extends to all sectors and includes practitioners, researchers, policymakers and leaders from every region of the world.

## HOW IT WORKS

All our online training is customised for the specific needs and requirements of your organisation and learners.

**1**

We work with you and your team to carry out a comprehensive learning needs assessment for your organisation. This includes any technical requirements.

**2**

We identify the needs of your learners and co-produce targeted learning objectives and learning strategies for the course. This will consider language and accessibility requirements as well as prior knowledge and experience.

**3**

We work with you to source existing resources and materials to incorporate, as well as to understand your organisation's culture and values, communication style and branding.

**4**

We create a storyboard and design for the course including format and duration, assessment and scoring, as well as all interactive and multimedia elements such as text, photos, audio, scenarios, examples, documents and videos (including video scripts and briefings for presenters) and guidance for facilitators.

**5**

We develop the course and implement all interactions and content.

**6**

We present the course for evaluation and review by your organisation and learners. Any feedback and revisions are incorporated and the course is finalised and ready to launch.

## WHO WE ARE

**Keeping Children Safe is the only independent international not-for-profit solely focused on child safeguarding.**

Our International Child Safeguarding Standards help make sure children have someone to turn to if they are abused and help bring perpetrators to justice.

We operate a quality assurance scheme for organisations to demonstrate their commitment to safeguarding children. We provide free and independent safeguarding technical advice, resources, conferences and training.

We prioritise organisations working with and for children in the most vulnerable circumstances, in low-income countries, in conflict or crisis situations, or organisations supporting victims and survivors of abuse.
